Set-up & Configuration

Make Payment to Supplier
via 'Payment' Module in PowerSuite

Make Payment to Supplier
via 'New Payment' in eNett Portal

Report – Payment Gateway Report

Set-up & Configuration

Configure eNett Credentials in PowerSuite

1

For agencies with eNett accounts currently, no further sign-up is required. Please prepare the following to complete the eNett/PowerSuite Integration:

- eNett Client Number (ECN) of the agency

2

For new agencies, please sign-up eNett account through <https://www.enett.com/contact-us>

eNett support team will provide necessary supports to the agency owner.

Configure eNett Credentials in PowerSuite

3

Go to PowerSuite > Setting (Wheel icon at the right-hand corner) > System Table > Payment Gateway Maintenance. Click on the **[Payment Gateway Maintenance]**:

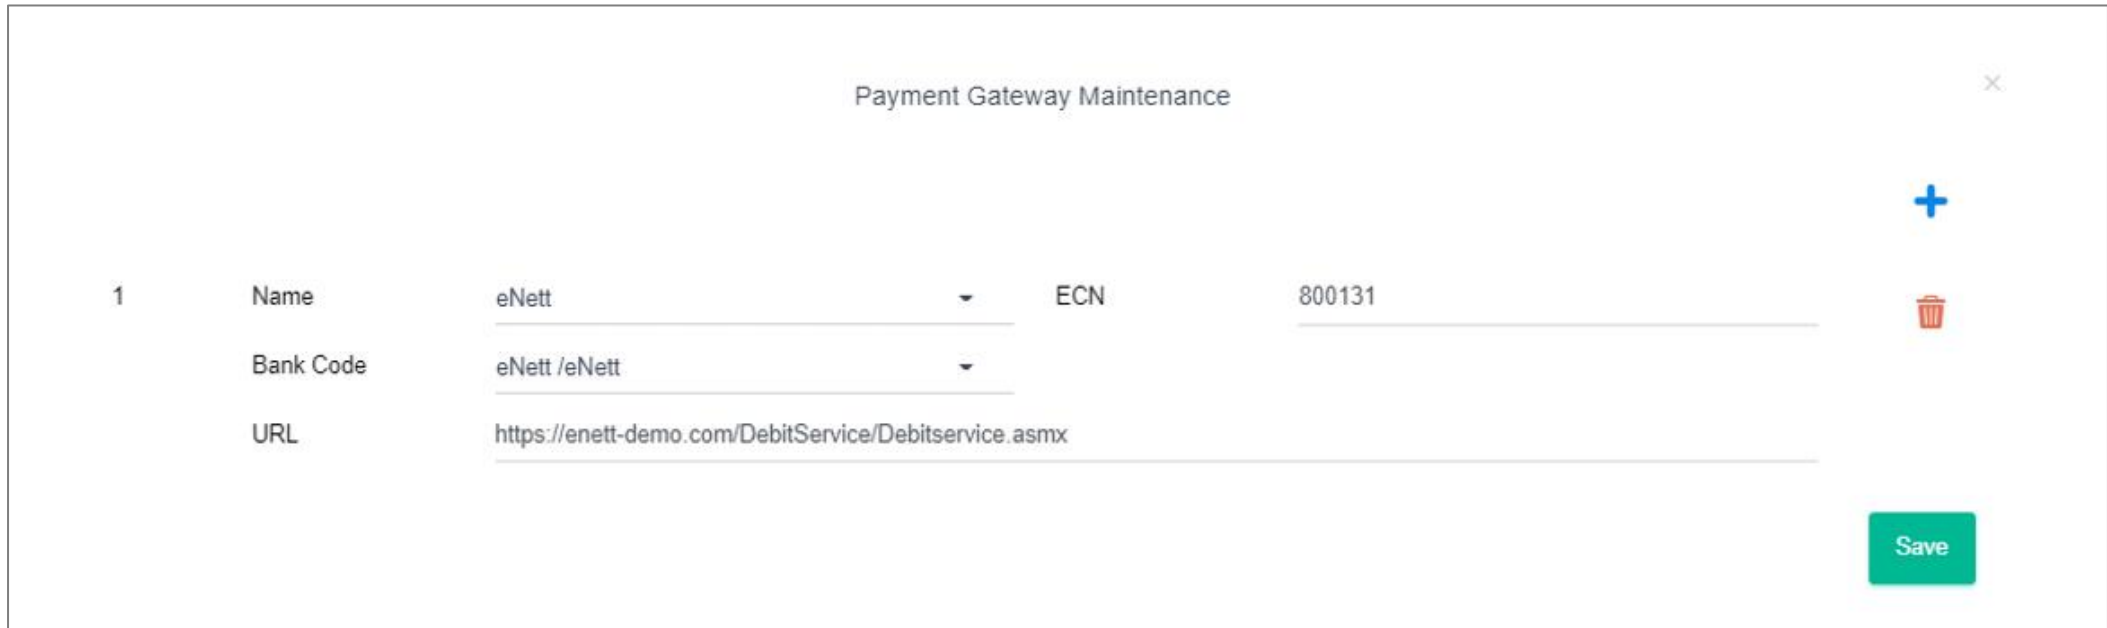

The screenshot displays the 'System Table Search' interface. At the top, there is a search bar with the text 'System Table Search' and a 'Booking No.' field. Below this, a blue header bar contains the text 'System Table Search'. The main area features a 'Category' dropdown menu set to 'All' and a search input field with the placeholder text 'Please input system table name for searching'. To the right of the search input are 'Search' and 'Reset' buttons. Below the search area, there is a 'Show 15 entries' label and a 'Filter' input field. A table with two columns, 'System Table' and 'Category', is displayed. The first row contains the entry 'Payment Gateway Maintenance' under the 'System Table' column and 'Back Office' under the 'Category' column. This entry is highlighted with a red rectangular box. At the bottom left, it says 'Showing 1 to 1 of 1 entries'. At the bottom right, there are navigation buttons: 'FIRST', 'PREV', '1' (highlighted), 'NEXT', and 'LAST'.

Configure eNett Credentials in PowerSuite

4

- Select “eNett” as the Name of the payment gateway
- Bank Code – eNett /eNett
- URL – <https://enett.com/DebitService/DebitService.aspx>
- Input the following that from eNett
 - Input agency’s ECN in ECN

Click on **[Save]** to complete the configuration

The screenshot shows a 'Payment Gateway Maintenance' window with a table of configurations. The table has columns for Name, ECN, Bank Code, and URL. The configuration for 'eNett' is shown with ECN '800131', Bank Code 'eNett /eNett', and URL 'https://enett-demo.com/DebitService/Debitservice.aspx'. There are also icons for adding (+), deleting (trash), and saving (Save button).

ID	Name	ECN	Bank Code	URL	Actions
1	eNett	800131	eNett /eNett	https://enett-demo.com/DebitService/Debitservice.aspx	+ 🗑️ Save

For further assistance on integration, please send a request to PowerSuite Support Team anzsupport@xmlhk.com

Configure eNett Credentials in PowerSuite

- 5 Maintain eNett Client Number (ECN) of Supplier:
- From 'Supplier' module > 'Payment' > eNett > Click **[Save]**

Q&A

Q. What would happen if the payment gateway failed to proceed payments via eNett?

A. In PowerSuite, the system would still generate a payment voucher [in 'Valid' status] to indicate the failed payment transaction through eNett. At the same time, users can track the payment status from report RTAU981 – Payment Gateway Transaction Log (refer to P.16-P.18).

Q. What would happen if the payment to supplier is being voided in PowerSuite?

A. In PowerSuite, the status of the payment voucher would be updated from 'Valid' to 'Void' in the Booking. It is also required to manually void the payment in eNett Portal if the payment no longer valid in PowerSuite.
